

SHIVAM GUPTA

Software & Systems Professional | Application Development | IT Operations & Vendor Management
+91-9038727270 | guptashivam0307@gmail.com | Bengaluru, India | [linkedin.com/in/shivam-gupta-823b63170](https://www.linkedin.com/in/shivam-gupta-823b63170)

PROFESSIONAL SUMMARY

Engineering graduate with hands-on software development, full-stack web development, and IT systems delivery experience, including 4G/5G Layer-1 protocol implementation and cross-functional technical project management. Skilled in Linux/Windows environments, scripting, web platforms, and network/protocol fundamentals, with a track record of leading delivery teams, coordinating vendors and stakeholders, and improving system performance and operational efficiency.

TECHNICAL SKILLS

Programming Languages: Java, C/C++, Python, Shell Scripting

Web & Application Development: HTML5, CSS3, JavaScript, Bootstrap, Android Studio

Systems, Networks & Protocols: Linux, Windows, Network Protocols, LAN fundamentals, 3GPP 4G LTE / 5G NR, O-RAN, RAN Architecture

Tools & Platforms: Git, VS Code, MS SharePoint, MATLAB, Google Analytics, Excel/Google Sheets (Dashboards & Reporting)

IT Project & Vendor Management: Cross-functional delivery, vendor & stakeholder coordination, performance optimization, KPI dashboards

PROFESSIONAL EXPERIENCE

Leadzsite — General Manager (IT & Client Delivery)

Dec 2023 – Present

- Directed end-to-end technical delivery for client IT platforms, including a full-scale e-commerce system and a content/course-selling platform, coordinating design, development, and QA teams to meet scope, timeline, and quality commitments.
- Improved platform performance and page-load speed by 40% through systematic technical reviews, directly improving SEO, engagement, and conversion outcomes.
- Led and mentored a 3-member technical delivery team, managing workloads, reviews, and release priorities across multiple client accounts.
- Owned client-facing technical planning and solution proposals, translating business requirements into scalable system designs and driving improved deal conversion.

Pokus Technologies — Relationship Manager & Operations Associate

Feb 2026 – Present

- Manage a cross-functional operations and vendor/store-partner network supporting a quick-commerce sourcing and fulfillment platform, coordinating inventory checks and last-mile delivery teams.
- Recruited, onboarded, and managed field operations staff; built standardized sourcing and vendor-engagement workflows that improved order fulfillment turnaround.

Samsung Research Institute, Bangalore (SRIB) — Software Developer

Aug 2022 – Nov 2023

- Developed 4G LTE / 5G Layer-1 uplink features (PUCCH & PUSCH) and maintained core L1 modules through debugging and issue resolution, gaining hands-on expertise in 3GPP / O-RAN protocol stack implementation.
- Built an automated shell script to streamline test-score calculations and improved test coverage by enhancing positive/negative test-case tracking.

Deloitte USI — Operational Analyst

Mar 2022 – Jun 2022

- Built responsive web layouts and client workspaces (HTML/CSS) for daily business operations; managed project rollouts on Microsoft SharePoint for an international (Germany) office.

Samsung PRISM (SRIB) — Project Intern

Jul 2020 – Mar 2021

- Developed an Android camera application using CameraX and OpenCV for real-time image assessment and UI interaction design.

EDUCATION

B.E., Electronics & Telecommunications

Aug 2018 – Aug 2022

Ramaiah Institute of Technology, Bangalore | CGPA: 7.97

ACHIEVEMENTS & LEADERSHIP

- Board Member & Treasurer, Rotary International Brigade Next Gen (2023–24); Community Service Director (2022–23); Volunteer, Rotary International (2018–22).
